Compact Color CCTV Camera with Low-Light B/W Mode WV-CP254H

Lens: optional

Half The Size...All The Performance.

It's amazing how much performance is packed into Panasonic's new WV-CP254H. The camera measures only 67mm wide by 72.5mm deep (2-5/8"x 2-7/8") yet it packs features and performance you would expect to find on cameras more than twice its size.

The WV-CP254H features Day/Night operation that automatically switches the camera from full color operation to the black and white mode when illumination levels drop, which makes the unit ideal for 24-hour surveillance applications. Additional performance features include a horizontal resolution of 480 lines in color and 570 lines in black-and-white; 50dB signal to noise ratio; minimum illumination of only 1.0 lux (0.1 fc) in color, and 0.15 lux (0.015 fc) in black-and-white at F1.4 lens (optional); Back Light Compensation (BLC), Aperture Correction, Automatic Gain Control (AGC), and Automatic Tracing White Balance (ATW).

The WV-CP254H's small size and big features make it the ideal choice for numerous applications. It's unobtrusive to blend into virtually any architectural environment while enhancing the performance of your security system.
